

Science home learning for Year 5

In the Summer term the children will be looking at all living things. Listed below are some activities that can be completed at home to support their understanding of this.

- Create life cycles for a mammal, amphibian, insect and bird.
- Create a list of similarities and differences comparing the life cycles.
- Watch the video <https://www.bbc.co.uk/bitesize/topics/zgssgk7/articles/zyv3jty> Describe the life cycle of a plant. You can make this in any form you wish e.g. a 3D model or a poster.
